Refined Dining Options

Comfort Greek cuisine refreshingly treated in unexpected ways, crafted with locally and sustainably sourced produce. Under the vision of Executive Chef Thanos Feskou, whose culinary pedigree includes leading kitchens at both Michelin and Green Michelin-starred restaurants in Greece and Copenhagen, each menu is conceived with artistic precision, technical mastery, and a deep reverence for ingredients. Exceptional dining options for a memorable sensorial experience, whether guests choose to eat al fresco, in the privacy of their own terrace or at one of the restaurants.

Lure Restaurant, overlooking the cobalt blue waters of the Caldera while seamlessly adopting the curvy shapes and descending formations on the rocky rim of Oia, Lure embodies Santorini's rugged beauty. The menu is dictated by pure Cycladic roots transformed into an elevated dining experience and an ethical supply chain that respects the environment and the community. Each dish is a fine expression of comfort Greek cuisine—rooted in tradition, shaped by modern craft, and driven by innovation.

Charisma Restaurant highlights a delectable menu curated with an eclectic mix of fresh local ingredients. Serving daily breakfast and lunch, Charisma invites guests to enjoy a relaxing ambiance by the infinity pool, where every meal is a celebration of exquisite flavors and sustainable practices.

Circe Bar draws its inspiration from Circe, the enchanting daughter of Helios, renowned for her mastery of herbs and spells. This alluring, open-air venue offers a diverse menu that includes delectable snacks, revitalizing fruit smoothies, afternoon tea, and cocktails, against a backdrop of panoramic sea views.

Lure Bar embodies Mystique's profound appreciation for a life rooted in a healthy lifestyle. A curated selection of healthy, low-alcohol cocktails sits side by side with carefully-chosen wines from Santorini, favorite cocktails with a creative twist and traditional Greek-flavored drinks.

The **Secret Wine Cave** is a dramatic 150-year-old wine cellar with the rarest indigenous wine selection, ideal for winetasting experiences and private candlelight dinners.

The **Private Dining** options, on one of the secluded terraces at the edge of the Caldera, lend themselves to the ultimate Santorini dining experience under the starry night sky, overlooking the volcano and the infinite blue of the Aegean Sea.
